2. Indian Council of Agricultural Research (ICAR), through, its Director General, Krishi Bhawan, New Delhi.
3. Indian Agricultural Research Institute (IARI) through the Director. - Respondents

(By proxy counsel Shri S.K.Gupta)

Common Order(Oral)

By Justice Ashok Agarwal, Chairman.-

Aforesaid Original Applications raised common questions. For sake of convenience, we have taken the facts in OA No.1275/99 for the purpose of disposal of all the aforesaid OAs. The applicants are Scientists working in various capacities in the Indian Agricultural Statistics Research Institute. By the present OA they claim that their age of superannuation should be increased from 60 to 62 years. This they claim on the basis that the age of retirement of Scientists working under the University Grants Commission (for short 'UGC') has been increased from 60 to 62.

2. Indian Council of Agricultural Research (for short 'ICAR'), it cannot be disputed, is a society registered under the Societies Registration Act, 1860. The same has been established for the purpose of achieving objects more particularly research in the field of agriculture. The applicants do not perform the

12

very same duties as Scientists who have been working under the UGC as those working under the UGC are engaged in teaching. As far as the ICAR is concerned the same is an autonomous body. It is governed by the rules and by-laws which have been framed in exercise of powers conferred under Rule 40 of the ICAR Rules. The service conditions of the applicants are governed by Chapter-III of these by-laws. In the circumstances no notification of the Central Government is applicable to employees of the ICAR until the same is adopted by the Governing Body of the Society. Though the Central Government has increased the age of superannuation of its staff, the same cannot be made applicable to the staff of ICAR and the Research Institutes coming under it without the approval of the Governing Body. By-law 38(5) provides as under :-

"Determine the conditions of service of the employees of the Council, fix the remuneration and define the duties."

Before any change can be brought out in respect of age of superannuation, the same will require amendment of By-law 33(a) which at present reads as under :-

"The age of retirement of Scientific and technical personnel in the service of the council shall be 60 years. No extension of service shall be given but where absolutely essential in the interest of research, the council may re-employ outstanding scientists on suitable terms with the prior approval of the President".

3. As far as the present issue is concerned, the ICAR has submitted its proposal to the President of the Council for obtaining the approval of the Cabinet. It is only after the same is approved by the Cabinet that the issue will be required to be placed before the

[Handwritten signature]

(B)

Governing Body for amendment of the aforesaid rules. It is only after amendment of rules in respect of age of retirement that the benefit claimed in the present OAs can be given to the applicants and other scientists similarly placed.

4. Having regard to the afore-stated position we are afraid that no direction can be issued at our end. The issue is under consideration of the Cabinet. All that can be done for the applicants in the present OAs is to request the Cabinet to take an early decision in the matter. The present OAs are accordingly disposed of in the afore-stated terms. No order as to costs.
