ORDER

By Hon'ble Mr. S. Das Gupta A.M.

As the facts and circumstances in both the aforesaid O.A.s. are similar, these were heard together and are being disposed of by a common order.

2. All the applicants in both the cases contended that they were initially recruited specifically for the Concrete Sleeper Plant, Subedargunj, Allahabad, which is an independent Unit of the Rlys, on various dates during the year 1982-83 from the open market on the basis of advertisement issued by the said Plant. They have also stated that <sup>they</sup> had filed an O.A. before this Tribunal for their elevation to the skilled category and the said O.A. was decided in their favour. This, however, is besides the controversy in the present case.

3. Controversy in the present case relates to a order by which the applicants are sought to be transferred from outside the Sleeper Plant. It appears that the railway authorities have taken a decision to close down certain line of production in the concrete Sleeper Plant at Subedargunj and at Khalispur. As a result certain numbers of staff in both of the Plants have become surplus to the requirement. In order to re-deploy the surplus persons, Northern Railway Headquarters have issued an order dated 29.8.1995 (Copy at annexure no.15 to O.A.14/95). The claim of the ~~respondents~~ <sup>applicants</sup> is that in accordance with the aforesaid guidelines, they are <sup>not</sup> required to be posted out of C.S.P. Subedargunj.

of

7.

4. The respondents have filed Counter affidavit. Rejoinder Affidavit has also been filed by the applicants.

5. We heard the learned counsel for both the parties and carefully perused the records.

6. All the parties were agreed that so long as the guidelines contained in the aforesaid order dated 29.8.1955 are adhered to while posting persons <sup>surplus-</sup> to the requirements of C.S.P. no one will have any grievance. In view of this we dispose of both the O.A.s with the following guidelines:-

The respondents shall strictly adhere to the guidelines contained in the Northern Railwa Hqrs' Order dated 29.8.1955 while deciding redeployment of surplus personnels outside C.S.P. at Subedarganj. Those employees who were not recruited initially in the C.S.P., but were subsequently transferred to that Unit and in course of time their liens in their parent departments have been extinguished will also be considered for retention in the C.S.P. at par with those employees, who were initially recruited for the C.S.P. itself. Incase, total number of such persons i.e those who were recruited for C.S.P. and those whose lien in the parent department have been extinguished on permanent absorption in the C.S.P. exceeds the reduced strength, their station seniority will determine the right to be retained in the Concrete Sleeper Plant. In other words, those ~~who~~<sup>who</sup> who - rank junior in the station seniority will be --

156

liable to be transferred out of C. S. P. to the extent required. In case, certain applicants have been transferred out of Concrete Sleeper Plant in violation of the aforesaid principle, such persons shall be brought back to the C. S. P. unless they are willing to continue at the station in which they have been posted.

7. Both the O.As are disposed of accordingly  
In view of the circumstances of the case, we pass no  
order regarding costs.
