The applicant has filed this application seeking regularization of service on the ground that the nature of work, where the applicant has been transferred is permanent. Learned counsel for the respondents submitted that since the applicant has already joined the post, where he was transferred, the OA has been rendered infructuous.

2. Accordingly, the OA is dismissed as rendered infructuous. However, if the applicant is still aggrieved, he may if so advised file fresh application for redressal of his grievances. No order as to costs.
