Heard on the question of admission. The
applicant was admittedly appointed to the post of
ED Packer only on a provisional basis. It is seen
that regular appointment has been made which the applicant

seeks to assail in this application. Apart from the fact that ^{the} person who has been so appointed has not been made a party, no acceptable ground has been urged for, interfering ^{with} the said appointment. In the circumstances, the application cannot be admitted.

2 Since the counsel of applicant appealed to us for the issue of a direction to the respondents for considering the applicant for appointment to the post of EDA when a vacancy arises, we would only observe that in case the applicant satisfies the eligibility conditions, the rejection of this application shall not stand in his way in being considered for such appointment.

3 The application is rejected.
