to people who are under the rules of the department not qualified for such benevolence at all.

2. The applicant is an official in the Electronic Department and at present holding a Diploma in Telecommunication. So intent he is on improving his career prospects he has already registered himself for the BE degree course and we are happy to be told that he has almost arrived at the last post because he is scheduled to take the final BE degree examination to be held by the end of this month. Hoping that he will do well and will get the benefit of all these four years of endeavour and would be accredited with a BE degree which would at once ensure that all things being equal he will get the chance of going abroad for securing greater technical knowhow. While we think it proper to dispose off this application on this note particularly now that we are told that one more chance of going abroad is open to him to study at Wienshelf in California. He may now tell the department that as he has almost become a graduate ^{thereafter} in his case the requirement of a graduate trainee could possibly be dispensed with as was done in the case of respondent No.3 on one occasion. That ofcourse is a matter for the department and probably by the time his application comes up for consideration the applicant might well have been adequately qualified by acquiring the degree qualification when probably there may not be any problem for sending him for training abroad with resultant benefit to the country.

Shri Justice P.K. Shyamasundar, Vice-Chairman:

1. We have heard the applicant who is in person and also the learned Standing Counsel for the respondents at the stage of admission itself. The grievance ventilated herein so earnestly by the applicant is that he was denied the chance of going abroad for training which is a routine affair in the department, even so it is alleged such chances are being given by the department
